

All Hazard All Discipline Notes

June 21, 2018 11:30 am

Gallatin County Coordination Center

Agenda

Present	<ul style="list-style-type: none"> • Mike Rotar, Buck Taylor, Betty Kalakay, Patrick Lonergan, Steven Doner, Scott Dreblow, Robert Kingery, Sanna Yost, Jim Domino, Ben Fennelly, Robin Cory, Mike Maltaverne, Frank Dougher, Orry Browning, Brad O’Grosky, Hayley Tuggle, Chris Randle, Bob Culbreth, Corey Lewellen, Keith Bast, Greg Megaard, Bryan Connelley, Jim Veltkamp, Dana McNeil, Bob Fry
Minutes Approval	<ul style="list-style-type: none"> • April 19, 2018
Presentations	<ul style="list-style-type: none"> • DNRC and HDR provided an overview of the new modeling of Middle Creek Dam conducted in 2017. The 2017 work utilized much more sophisticated modeling technology with a much more detailed 2D resolution. They also utilized different scenarios than the traditional Clear Weather and Probable Maximum Flood scenarios. For 2017 both a simplified breach and overtopping scenario were utilized. The overtopping utilizes the assumption that all waterways are already at maximum capacity, the reservoir is full, then a failure. The Probable Maximum Flood scenario modeled with all waterways empty before the failure, so this is a considerable change. <p>With the higher resolution model, there are a lot more terrain factors that direct the water compared to the old study that treated an area as flat even if it had a 20’ elevation change. The terrain factors that can now be modeled change the inundation area significantly and result in most of the water flowing North and Northeast from Four Corners. This shows water through Belgrade which was previously an island.</p> <ul style="list-style-type: none"> • Mike Rotar provided an update on the Hazard Mitigation Plan. They are currently editing and updating the written plan. Feedback on projects will be solicited electronically in the next couple weeks. On June 27th a work session is being held on wildland urban interface criteria. The plan is to have a final draft ready by fall and begin the state review and local adoption. Following that, the plan would be submitted to FEMA around the end of the calendar year.
Action Items	<ul style="list-style-type: none"> • Emergency Management Plan Updates for the following documents are underway. Please look at any annexes that you have responsibility for and provide feedback. (view here) <ul style="list-style-type: none"> ○ Shelter and Mass Care

	<ul style="list-style-type: none"> ○ Evacuation ○ Health and Medical Services ○ Human Services
Updates	<ul style="list-style-type: none"> • The Violent Attack Sub Committee has met twice. They are following a FEMA process guide and are currently looking at risks and interception. • Grant Awards <ul style="list-style-type: none"> ○ Official notification of the Mass Casualty Grant has been received for just under \$300,000. ○ The official notification for the statewide Situation Analyst Montana grant has been received for \$70,000. ○ We have verbal notification that we should be receiving \$45,000 in reverted Emergency Management Performance Grant funding for purchase to two trucks. ○ We have received official notification of the SFY19 Emergency Management Performance Grant for about \$118,000. • Emergency Management's 2019 budget is looking real good. We will be adding an employee in January, added matching money for the vehicle purchases, and are adding a storage warehouse. • The Gallatin County Volunteer Organizations Active in Disaster is in the process of getting back up and running. Susan Spanjol has put a lot of work into this and has the ball rolling. This is pretty critical to the county as several key emergency functions are tied in with this organizational group. • DPHHS had a groups of FEMA Corps students come through the state conducting shelter inventories, including Gallatin County. It was not well coordinated.
Next meeting	<ul style="list-style-type: none"> • August 16, 2018 – pending wildfires
