Re: April 8, 2016 diesel fuel spill near VeltKamp and Linney Roads in Bozeman, Gallatin County, Montana. [CVID 19080]

Dear Mr. Oakland:

On April 19, 2016, the Enforcement Division (ENFD) of the Montana Department of Environmental Quality emailed you a violation letter for the improper disposal of a solid waste at the above-referenced location. In the violation letter, ENFD requested that Oaks Disposal Trucking, LLC conduct assessment and remedial actions, and submit a final spill cleanup report by July 31, 2016. The violation letter was emailed to oldy_2002_oakland@hotmail.com, the email address provided to ENFD. As the email was not rejected, ENFD assumed delivery was complete.

As of the date of this letter, ENFD has not received the final cleanup report. ENFD is unable to determine if the remedial actions conducted were successful and that remaining petroleum hydrocarbon-impacted soils, if any, are below the applicable cleanup standards or if additional remedial action is required.

To avoid a formal enforcement action, ENFD requests that you submit the final spill cleanup report by August 31, 2016. Please refer to the enclosed April 19, 2016 violation letter for information regarding the spill cleanup report format.

If you have questions related to this matter or feel the reported information is not factually accurate, please contact me at either dkenney@mt.gov or the telephone number listed below. Please reference CVID 19080 on any future correspondence related to this incident.

Sincerely,

A handwritten signature in blue ink, appearing to read "D. Kenney", is written over a horizontal line.

Daniel R. Kenney
Enforcement Specialist
